Twelve million populations!!! Too much complicated Seoul!!! Don't you know where I am where!!! But actually Seoul is very well organized and planned city in every direction. Namsan is highest tower in Seoul. At there if you see the whole view of Seoul which is divided by the Han River in north and south with information given by professional tour guide, and then you will be not any more a stranger of Seoul!! On lucky day, you even can see the Gaesung city in North Korea!! Namsan Korean Village is famous for that still preserving Korean traditional style house in Seoul.
