MISSION OF CVRF

ANGIOPLASTY SUMMIT – TCTAP is sponsored by CardioVascular Research Foundation (CVRF).

The CardioVascular Research Foundation (CVRF) is

- A non-profit clinical research foundation that seeks to contribute in improving the lives of patients with cardiovascular disease by promoting preclinical and clinical researches, educating physicians and teaching patients.
- Since its establishment in 2002, CVRF has been designing and implementing a large number of outstanding clinical researches, educational meetings and clinical training sessions to help conquer cardiovascular disease affiliated with Asan Medical Center in Seoul, Korea.
- The CVRF will continue to develop innovative technologies and educate professionals and the public related to the cardiovascular field through its vast experience and knowledge obtained by ongoing research activities, scientific conferences, educative websites and various training programs to improve the survival and quality of life for people with cardiovascular disease.

CVRF's OTHER ANNUAL CONFERENCES in 2012

IMAGING & PHYSIOLOGY SUMMIT and CTO LIVE

www.imaging-physiology.com
www.cto-live.com

- More practical and advanced learning opportunity in the field of Imaging & Physiology and Chronic Total Occlusion will bring the global leaders and young physicians in **Asan Medical Center, Seoul, Korea, January 6-7, 2012.**
- The aim of this joint symposium is to understand the practice of the lastly updated techniques and investigation, and to educate participants on how to perform on a daily basis.
- With interactive live case demonstrations from the leading institutions in the fields as well as special lectures of invited speakers, this will provide an opportunity to review the advanced imaging modalities and technical tips and tricks for optical CTO procedure.

TAVI SUMMIT

www.taviconference.com

- Currently Transcatheter Aortic Valve Implantation is in the spotlight as a rapidly evolving and expanding treatment option to save lives of high-risk AS patients.
- For the first time in Korea the TAVI SUMMIT 2011 opened on September to advance this outstanding technology and educate physicians and other healthcare professionals. There were around 400 participants mostly from Asia Pacific region, and interventional cardiologists, clinical cardiologists, surgeons, and anesthesiologist included.
- This was divided into three main formats, such as live case demonstrations dealing with transfemoral approach performed by Alain G. Cribier from France, Seung-Jung Park and other professionals from Asan Medical Center, Korea, case presentations by invited faculty, and special lectures. Participants this year reported that they were satisfied with their experiences. 2nd TAVI Summit will be scheduled on **September 7-8, at Sheraton Grande Walkerhill Hotel, Seoul, Korea.**

TRAINING PROGRAMS & ON-LINE LEARNING SITE

ACT Program

- The Asan Medical Center Training Program (ACT Program) is an intensive four days learning course for those who are interested in developing further training in interventional cardiology. Participants can learn Left Main and Bifurcation, Imaging, and other treatment options of interventional cardiology by state of the art lectures featuring invited guests, live case demonstrations, and hands on experience, and dynamic discussion during the procedure.
- To check the class schedule and other information on registration, accommodations, and agenda, please visit our website.

www.cvrf.org

Fellowship Training Program

- This program has been developed in cooperation with the Heart Institute of Asan Medical Center, Korea. International and Korean fellows and young interventionists are eligible to apply for this short-term or long-term training program.
- During the training period, each individual is able to enhance techniques, knowledge and experience with current techniques by observing performances of different procedures and audiovisual education lectures. For more information, please visit website, www.cvrf.org.

On-line Learning site;

www.summitmd.com

- CVRF runs the on-line learning site, SummitMD.com which provides thousands of presentation slides, lectures, and live interview videos from Angioplasty Summit-TCTAP, IMAGING&PHYSIOLOGY and CTO LIVE, and TAVI SUMMIT.
- It is allowed to access to the slides and documents after logging in.
