CARDIOVASCULAR SUMMIT – TCTAP is sponsored by

## CardioVascular Research Foundation (CVRF)

**T**he CardioVascular Research Foundation (CVRF) is a non-profit clinical research foundation that seeks to contribute in improving the lives of patients with cardiovascular disease by promoting preclinical and clinical researches, educating physicians and teaching patients.

**S**ince its establishment in 2002, CVRF has been designing and implementing a large number of outstanding clinical researches, educational meetings and clinical training sessions to help conquer cardiovascular disease affiliated with Asan Medical Center in Seoul, Korea.

**T**he CVRF will continue to develop innovative technologies and educate professionals and the public related to the cardiovascular field through its vast experience and knowledge obtained by ongoing research activities, scientific conferences, educative websites and various training programs to improve the survival and quality of life for people with cardiovascular disease.

# TRAINING PROGRAMS & ON-LINE LEARNING SITE

---

## ACT PROGRAM

- The Asan Medical Center Interventional Cardiology Training Program (ACT Program) is an intensive four days learning course for those who are interested in developing further training in interventional cardiology. Participants can learn Left Main and Bifurcation, Imaging, and other treatment options of interventional cardiology by state of the art lectures featuring invited guests, live case demonstrations, and hands on experience, and dynamic discussion during the procedure.
- To check the class schedule and other information on registration, accommodations, and agenda, please visit [www.cvrf.org/workshop](http://www.cvrf.org/workshop)

---

## FELLOWSHIP TRAINING PROGRAM

- This program has been developed in cooperation with the Heart Institute of Asan Medical Center, Korea. International and Korean fellows and young interventionists are eligible to apply for this short-term or long-term training program.
- During the training period, each individual is able to enhance techniques, knowledge and experience with current techniques by observing performances of different procedures and audiovisual education lectures. For more information, please visit website, [www.cvrf.org](http://www.cvrf.org)
